Christopher Ives : Zen Awakening and Society before purchasing it in order to gauge whether or not it would be worth my time, and all praised Zen Awakening and Society:

0 of 0 people found the following review helpful. Great background and history By caviebjm@umr.edu The history and background of Zen as presented is excellent. I found it highly educational though somewhat difficult to follow at times. It just requires focused, concentrated reading. I was somewhat skeptical of the final section of the book, especially the Zen theories on economics. I thought that the author seemed to be stretching a bit to really get meaning from Zen philosophies and how they should apply to the modern world. But most of it was very good. Definitely worth some study time. 0 of 0 people found the following review helpful. very good By A Customer this book was simply amazing, chris is extremely knowledgeable of his subject. a pleasure to read
